Dear Dr Gilliat

Thank you for your letter of 9 September 2011 addressed to Joanna Farrell in respect of your complaint about Professor Lord Robert Winston. The matter has now been passed to me in accordance with GMC procedures.

I understand that you are dissatisfied with my colleague's response, however, given the volume of correspondence that has been exchanged between us since 1991, I do not intend to respond to the individual points you are making.

Each of your complaints has undergone a thorough assessment by an Assistant Registrar who has made the determination, as they are empowered to do, under the Medical Act 1983. These decisions have been conveyed to you and detailed correspondence as mentioned above, has followed.

I do not believe that there is anything further that can be usefully added that has not been covered before. I regret that you are unlikely to be satisfied with this response but I must advise you that future correspondence from you on these matters will be placed on file but may not receive a response.

Yours sincerely
