Reference

Dear Dr Glatt,

Following our discussion last week I had a conversation with Mr Clive Entwistle, the Director of 'The Cook Report', and obtained answers to some of your questions. The patients featured on the programme were a selection of those who had written to the television company because they were unhappy about the treatment they had received, and suggesting an investigation into their complaints. Medical advice was taken on the programme and the final version was approved by the advisers. Mr Entwistle is happy to meet you to talk about the programme and to give the opportunity to put forward your views about the presentation of the material.

I hope this will be of some use to you.

Yours sincerely

Dame Mary Donaldson
Chairman
